

Logan 2.

“Optical Illusion”

Do you want to play with me?

Are you really sure that's true?

I will still blow your mind,

When I am through with you.

Could there be two faces?

Could there be a cup?

Is there truly a cube inside a sphere?

In the painting, a wind-up pup?

You may think there is no right answer,

I'm telling you, there is.

You need to open up your mind

To truly be a master or a whiz.
