"Rain"

I take away your sun
As well as the fun,
I bring rainy showers
And with my watering powers
I bring you new flowers,
Even though, you might not
realize it
I will be gone soon
So you can play in the lagoon.

"Clouds"

I create images in the sky,
I hold all the rain,
I can cover the sun as well as the moon,
I come very soon
And drift away quickly,
I wash away the light
To make the land below look like
Night.

All done!
